What's New

At the beginning of 2016, Kencor transitioned to a new accounting program, Sage. Your invoices, statements, and estimates have a new appearance. We appreciate the calls and comments we have received in regards to our new look. Please continue to provide us feedback.

Our online customer portal is available to all of our customers. This feature is very helpful for record keeping and obtaining information. Contact our office today to gain access. Initial set up is less than 5 minutes, and the program is user friendly. If help is needed, we will be happy to assist you. Let us know if there is anything else you would like to see us do.

"A successful elevator, dumbwaiter, or accessibility lift not only improves access in your building, but also raises the value of your property " - kencorelevator.com

Did You Know

The very first modern elevators were located in upscale, luxury hotels. As the industry grew they were introduced to office buildings and apartments.

Our Goals

Customer satisfaction is our top priority, so don't be surprised if one of our Supervisors schedules a site visit. Becoming acquainted with our clients and seeing the equipment first hand helps us better serve you. Please reach out to us, if you would like to schedule a meeting.

The elevator industry is constantly changing and Kencor's employees are currently involved in online courses, in-house trainings, and job site instruction. The NAEC has developed several new programs that our staff is partaking in. Take a look at NAEC.org to see what they are learning. Not only is it an investment in our employees, but its an investment for you.
